JOIN THE GEAR LESS REVOLUTION-GET THE ZARA ADVANTAGES.

ZARA ELEVATORS – NEXT GENERATION LIFT SOLUTIONS

Zara is the future of vertical transportation, combining rare earth permanent magnet gearless motors with VVVF drive technology.

Why Choose Zara?

Save Energy → Up to 60% less power consumption, high efficiency (80%).

Eco-Friendly → No oil, no pollution, less heat generation.

Smooth Ride → Jerk-free starts, soft stops & vibration-free travel.

Durability → Gearless motor, sealed bearings, minimal maintenance.

Future-Ready → Designed for high performance & long-term reliability.

Special Features (Standard in Zara Lifts)

VVVF Controllers → 50% energy saving, smooth acceleration & no landing variation.

Stylish SS Buttons → LED illumination, engraved numbers, tamper resistant.

Fireman Switch → Full control for fire personnel in emergencies.

VVVF Door Controller → Silky door movement, adjustable open/close timings, nudging feature.

Infrared Curtain Sensor → 155 beams ensure safe door operation.

Floor Annunciation → Voice & music announcement on arrival.

Full Height Car Fixtures → With press & speak, overload indicators.

Rescue Device (ARD - Optional) → Auto nearest-floor landing during power failure.

Overload Indicator (Optional) → Alerts & alarm when capacity is exceeded.

Our Legacy

Over a decade ago, Mr. Imran Husain laid the foundation of Zara Elevators. Today, Zara stands as a trusted brand in the elevator industry, known for:

COMMITMENT

UNMATCHED QUALITY

SERVICE & EXCELLENCE

RELENTLESS HARD WORK

Elevators Installation, Spare Parts and Services

ZARA Elevators – Our Team, Our Strength

At Zara Elevators, we believe that the backbone of any successful organization is its people. Over the years, we have built a strong and reliable team of experts who ensure that every lift we design, install, and maintain meets the highest standards of safety, quality, and customer satisfaction. Each member of our leadership team brings unique expertise and commitment to their role, making Zara Elevators one of the most trusted names in the elevator industry.

.Mr. Imran Husain - C.E.O.

is a dynamic decision-maker and the guiding force behind Zara Elevators. With his forward-thinking approach, he constantly strives to adopt the latest technologies, ensuring that customers and communities receive the best solutions. He firmly believes that new technologies are always beneficial for humanity, as they improve safety, efficiency, and sustainability. By understanding the needs of the modern era, Mr. Husain ensures Zara Elevators stays ahead in innovation and service excellence. His leadership continues to inspire the team and shape the future of vertical transportation with reliability and progress.

Mr. Anuj Saxena – Head of Purchase

Mr. Anuj Saxena leads our purchasing department with unmatched experience and dedication. As the head of purchase, he ensures that only the best quality spare parts and products are sourced for our customer's lifts. His careful selection process focuses not only on durability and performance but also on cost efficiency, ensuring that every product used in our elevators reflects Zara's promise of premium quality and long-lasting reliability. With his expertise, Zara maintains strong partnerships with leading manufacturers and suppliers, ensuring that our customers always receive world-class components.

Mr. Govind Arora – Technical Head (Installation & Repair)

With years of hands-on experience, Mr. Govind Arora plays a vital role as the technical head of installation and repair. His skill set covers the complete cycle of elevator setup – from precise installation to timely repairs and ongoing maintenance. Mr. Arora ensures that every lift installed by Zara Elevators operates smoothly, safely, and efficiently. His technical insight and leadership allow us to consistently deliver elevators that meet international safety standards and modern design expectations. For our customers, his presence provides peace of mind, knowing their lifts are in the hands of a true professional.

Mr. Ankit Mishra – Technical Head (Quality & Customer Relations)

Mr. Ankit Mishra heads one of our most important divisions – quality control and customer feedback management. His responsibility is to guarantee that every elevator installation carried out by Zara not only meets but exceeds customer expectations. By closely monitoring the quality of installations and following up on customer feedback, he ensures continuous improvement in our services. His proactive approach strengthens Zara's reputation for reliability, transparency, and customer satisfaction.

Excellence Through Teamwork

Together, Mr. Imran Husain, Mr. Anuj Saxena, Mr. Govind Arora, and Mr. Ankit Mishra form the core leadership of Zara Elevators. Their combined expertise in technical operations, quality assurance, and customer service ensures that every lift we deliver is safe, efficient, and premium in quality.

**At Zara Elevators,
teamwork is not just a value
it is the foundation of our
success.**

Elevators Installation, Spare Parts and Services

ZARA Elevators Services is one of the leading companies in lift installation and services. We provide all types of lifts and elevators, designed for safety, comfort, and durability. We also deal in premium quality spare parts, ensuring reliable performance and long-lasting solutions. With our focus on best quality products and expert installation, we deliver excellence you can trust. "Your trusted partner for safe, smooth, and premium elevator solutions."

Fuji Lift Controller Accessories also Available

Elevators come in different types to suit various needs.

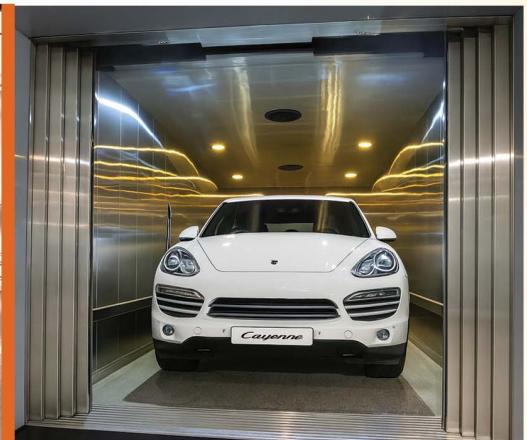

Passenger elevators carry people in buildings, while hospital elevators are larger for patients and equipment. Capsule elevators give a panoramic view with glass walls, and home lifts provide easy movement in houses. Dumbwaiter elevators move food or small goods, hydraulic/car lifts raise vehicles or heavy loads, and MRL elevators save space by working without a machine room. Each type is designed for comfort, convenience, or utility.

Capsule Elevator
A capsule elevator is a panoramic lift with transparent walls

Hospital Elevator
A hospital lift is a spacious elevator for moving patients and medical equipment.

Hydrolic / Car lift
A hydraulic car lift is a lift powered by fluid pressure, used to raise and lower vehicles safely.

Home Lift
A home lift is a compact elevator designed for easy floor-to-floor movement in houses.

Dumbwaiter Elevator
A dumbwaiter elevator is a small lift used to carry food, dishes, or goods between floors.

MRL Elevator
An MRL elevator (Machine Room-Less) is a space-saving lift that operates without a separate machine room.
